

## **Boulder-Area Therapists Specializing in Early Intervention and Family Coaching**

The State of Colorado has recently adopted stricter eligibility requirements for Child Find Part C (Early Intervention). While all children are still able to receive a Part C Evaluation, the stricter eligibility requirements will leave many children unable to access Early Intervention Services through Child Find. The below list of Early Intervention Providers specialize in working with children ages Birth through 3-yrs-old and coaching families to develop strategies for their daily routines.

Many of these therapists also serve children over the age of 3-years; services are offered in-person, for consultation, and via telehealth. This list includes SLPs (page 1), OTs (pages 2, 3, 4), and PTs (page 5).

Please use this list to guide your referrals. If you are unsure which provider is the best fit for your referral, please feel free to contact any therapist on this list, and we are happy to guide you to the appropriate provider.
